

## OH NO!

Atlas

I don't like to rush things, oh no I don't really move like that  
Tonight may love your company and tomorrow may never call you back  
And I just like to have my fun yeah, keep it simple, no strings attached  
We could go out for food and drinks, that's it, I'm fine with that

I could go home, get in my jammies  
Already told you can't meet my family  
So quit asking, don't need my address  
Don't get on Facebook thinking you can change my status

I'll take my beer, I'll take my Netflix  
Don't need your cooking, I'll make my own breakfast  
Probably get Postmates, I'm kinda lazy  
I wouldn't date you even if you paid me

I'll take my beer, I'll take my whiskey  
You can kiss me but don't do it like you miss me  
And when the suns down I'm good to cuddle  
But if you touch me while I'm sleeping it's a no no  
Oh no

I don't really like body heat, you can miss me with that  
If you don't like to sleep with a fan on you well that's too bad  
And I don't like to share my covers, need every inch and that's a fact  
And if you got a problem with it you could always Uber back

To your car where you could head home  
So I can sleep here comfy and alone  
So quit askin', yeah this is madness  
Don't get on one knee thinking you could change my last name

I'll take my beer, I'll take my Netflix  
Don't need your cooking, I'll make my own breakfast  
Probably get Postmates, I'm kinda lazy  
I wouldn't date you even if you paid me

I'll take my beer, I'll take my whiskey  
You can kiss me but don't do it like you miss me  
And when the suns down I'm good to cuddle  
But if you touch me while I'm sleeping it's a no no  
Oh no
