

# Plank

Atlus

I never felt the way that you make me feel  
Too bad it's too late for you say it still  
Treat my heart like your soldier  
Desperate and lovesick  
Leaving me nothing on your way out

Grave sight  
Great height  
Long kiss goodnight  
Swept up by the breeze  
Last rites  
Sealed tight  
Lock it up  
Throw out the key

Diving right in to your tidal wave  
Like a crash course romance headed straight  
To the iceberg waters in the black abyss  
Cause nothing's ever made me feel like this  
Drown me baby so I can't escape  
Blue face body won't float away  
You're the deepest part of my amazing grace  
Lifelong love walking off that plank

Hell is only one bad mistake away  
I'd chase you through the gates just to see your face  
Why won't you let love win  
I know that you want it  
Better than heaven if you're nowhere around

Grave sight  
Great height  
Long kiss goodnight  
Swept up by the breeze  
Last rites  
Sealed tight  
Lock it up  
Throw out the key

Diving right in to your tidal wave  
Like a crash course romance headed straight  
To the iceberg waters in the black abyss  
Cause nothing's ever made me feel like this  
Drown me baby so I can't escape  
Blue face body won't float away  
You're the deepest part of my amazing grace  
Lifelong love walking off that plank
