

Should've saw it coming  
Should've seen the smoke from a mile away  
I should've started running  
When the same flame burned me yesterday  
You left me for dead two hits to the chest  
Took everything in me to find my way out  
Head on a stone a trail going cold

Can I can I get a redo I need to  
Fall out of us fall out of touch  
It's driving me crazy  
Yeah it always seems to bleed through  
Cause covered in cuts is never enough  
When it's too deep to take it  
If I got a redo I'd redo  
Ever falling in love falling in love with you

Never thought when it started  
You would end up an enemy  
Go and turn into a heartless  
Bitch now you're just a memory  
You left me for dead  
Two shots to the chest  
Took everything in me to find my way out  
Head on a stone a trail going cold

Can I can I get a redo I need to  
Fall out of us fall out of touch  
It's driving me crazy  
Yeah it always seems to bleed through  
Cause covered in cuts is never enough  
When it's too deep to take it  
If I got a redo I'd redo  
Ever falling in love falling in love with you  
If I got a redo I'd redo  
Ever falling in love falling in love with you
