

## Tom Petty

Atlas

Did you think you could  
Go and hurt me like your last  
Never pay dues and owe  
A payback to your past  
You can say all that you want to  
But darling I've always known the truth  
Girl you think I got an attitude  
Wait until you see me through the bottom  
Of your empty glass

I can do this all day  
I can leave you on read  
Filling your spot in my bed  
All your friends will take the bait  
When they see me at the bar  
Chilling with a baddie  
That you hated from the start  
Call me Tom cause you know I get Petty  
Those free fallin tears let em fall like confetti  
If that's a game you wanna play  
Baby checkmate mmmmm  
I can do this all day

When I said lets settle down  
I was talking about your temper  
I kept trying to recount  
But you said you don't remember Oh  
But cheating is a choose  
Don't think I ain't on to ya  
Girl you think I got an attitude wait until you see me through  
The bottom of your empty glass

I can do this all day  
I can leave you on read  
Filling your spot in my bed  
All your friends will take the bait  
When they see me at the bar  
Chilling with a baddie  
That you hated from the start  
Call me Tom cause you know I get Petty  
Those free fallin tears let em fall like confetti  
If that's a game you wanna play  
Baby checkmate mmmmm  
I can do this all day  
I can do this all day  
I can do this all day
