

# Don't Mind Me

## Atmosphere

I don't mind

I don't mind

I don't mind

You deserve some levity  
For whatever it's worth, it weighs heavily  
First place ain't nothing but a memory  
But it depends on what the sponsors are peddling  
Looking at the latency  
Don't ever put all your eggs and seeds in one legacy  
I want to live to see some longevity  
And spread thin over everything  
I don't mind, I'm trying to feel secure  
But I don't even know if I'd recognize that kind of fur  
My fingerprints seem so blurred  
I want to leave the earth just me and her  
And we ain't trying to learn the words  
But whatever works, whatever's preferred  
Already got her name tattooed on my nerves  
I just want to make sure that I'm heard  
I don't mind, I respect every step that I climbed  
I believe that everything will be fine  
Just don't wake up in a box made of pine  
And don't sleep in a bed made of time  
And don't sacrifice your breath for the rhyme  
Everybody gets left behind  
And maybe we'll find it was all by design  
It was took from the walls of our mind  
I don't mind

I don't mind

I don't mind but I'd be lying if I said it was cool  
But you would cry if I said it was through  
Get your ducks lined up at the petting zoo  
Keep the view a few steps ahead of you  
The house gonna house the rules  
It's the same old song and power moves  
But you can fail with no excuse  
Because the games at the fair ain't supposed to lose  
I don't mind but that don't mean that I don't care  
I do my best to express most clear  
I don't speak the savoir faire  
This ain't chess, this is solitaire  
So turn up the bass and lay back the captain's chair  
We trying to relax in here  
I'm somewhere in between the laughs and the tears  
And maybe that's why we call it atmosphere  
Do you mind
