

# Dotted Lines

## Atmosphere

And I just wanna let you know and I just, you know what  
Baby lately I don't even know what to say to ya  
Grab something stable and sturdy it's getting crazier  
But why so blue it's getting brazier too  
Try to spread love and keep your head up buckaroo  
I hope you catch a W and your crew does too  
Don't die multiply two plus two  
And on the 7th looked up and saw the name in the stars  
Next to Hüsker Dü and that's super cool  
And every stick in the mud became a dick in the dirt  
I don't know their music but I got the Misfits shirt  
Ayo my horoscope says that I should skip dessert  
And put my fitness first  
Dear God I believe I've received your calling  
And you're probably wondering why I seem to be stalling  
Wanna live long enough to buy some weed at Walgreens  
Is that too much to ask?  
I just wanna let you know  
Just wanna let you know

I never stepped in line to be the next in line  
Don't let the operator come and disconnect your line  
Keep it rolling even if you forget your lines  
I love it when we color outside of the lines  
Opened up the hands to reach across the dotted lines  
Jumped over the ropes like there ain't no lines  
Is that really too much to ask  
I just wanna let you know  
I gotta let you know

This ain't my story I'm just the homie's sidekick  
My psychic told me they were gonna be my psychic  
I remember back before life was actually priceless  
We still pretended like we liked it  
Used to keep a vice grips attached to the back of the seat post  
Big daddy sweatpants clapping mosquitoes  
Trying to squeeze the cheddar out of a bag of cheetos  
So I can pull some records out the racks at Cheapos  
Wake me up in 2072  
Are you ready to die or are you ready to do  
Fuck the cops fuck the judge fuck the referees too  
Especially you but not you right  
The music sells the movie and the movie sells the toys  
The toys sell a lifestyle of girls versus boys  
Trying to sing a lullaby in a world full of noise  
Now let me hear your beautiful voice  
Come on and let me know  
(Be the next in line  
Keep, just in case you forget your lines  
I love it when we, the lines  
There ain't no lines)  
I'm just trying to let you know
