Leave me never would you, you show could I if [6x]

She said that she still wants a friendship She can't live her life without me as a friend I can't figure out why I'd give a damn to what she wants I don't understand the now before the then

Most of this garbage I write
That these people seem to like
Is about you
And how I let you infect my life
And if they got to know you
I doubt that they would see it
They'd wonder what i showed you
How you could leave it
A friend in Chicago said that I should stay persistent
If I stay around I'm bound to break resistance
Fuck you, Lucy, for defining my existence
Fuck you and your differences

Ever since I was a young lad
With a part-time dad
It was hard to find happiness inside of what I had
I studied my mother
I digested her pain
And vowed no woman on my path would have to walk the same
Travel like sound across the fate ladder
I travel with spoon to mix this cake batter
And i travel with feels so i can deal with touch
It's like that
Thank you very much
Fuck you very much

Yes Yes it is

And everyone in his life would mistake it as love Everyone in his life would mistake it as love Everyone in his life would mistake it as love

Yes Yes it is

And everyone in his life would mistake it as love Everyone in his life would mistake it as love Everyone in his life would mistake it as love

Fuck the what happened
I got stuck
They can peel pieces of me off the grill of her truck
Used to walk with luck
Used to hold her hand
Fell behind and played the role of a slower man
I wanna stand on top of this mountain and yell
I wanna wake up and break up this lake of hell
I feel like a bitch for letting the sheet twist me up
The last star fighter is wounded time to give it up

On a pick it up mission Kept it bitter Getting in a million memories just to forget her The difficulty in keeping emotions controlled Cookies for the road Took me by the soul Hunger for the drama Hunger for the nurture Gonna take it further The hurt feels like murder Interpret The eyes Read the lines on her face The sunshine is fake How much time did i waste? Fuck you, Lucy, for leaving me Fuck you, Lucy, for not needin' me I wanna say fuck you Because i still love you No, I'm not OK And I don't know what to do

Yes Yes it is

And everyone in his life would mistake it as love Everyone in his life would mistake it as love Everyone in his life would mistake it as love

Yes
Yes it is
And everyone in his life would mistake it as love
Everyone in his life would mistake it as love
Everyone in his life would mistake it as love

Do I sound mad? Well I guess I'm a little pissed Every action has a point Five points make a fist You close 'em You swing 'em It hurts when it hits And the truth can be a bitch But if the boot fits I got an idea You should get a tattoo that says "Warning" That's all, just a warning So the potential victim Can take a left and safe breath And avoid you Sober and upset in the morning I wanna scream "Fuck you, Lucy!" But the problem is I love you, Lucy So instead I'm gonna finish my drink and have another While you think about how you used to be my lover (Fuck you)

Yes Yes it is

And everyone in his life would mistake it as love Everyone in his life would mistake it as love

Everyone in his life would mistake it as love

Yes Yes it is

And everyone in his life would mistake it as love Everyone in his life would mistake it as love Everyone in his life would mistake it as love

Leave never would you, you show could I if...
