

Don't underestimate the power of a threat  
Could probably turn your volume down a couple steps  
The universe of every surface that reflects  
It's in your drugs and your food and your sex  
I'm a tyrannosaurus wreck  
Break another sweat  
I gave you my heart in the shape of a cassette  
How can I continue if I don't know how to let  
Go of all my issues to forgive you and forget?  
I love you, don't ever expect anything less  
I've got your name on the list, bring a guest I  
Know you got my back, I can the feel the connect  
But my local laundromat doesn't accept respect  
And maybe you can help me settle a bet  
Should I bite my tongue or keep it hella direct?  
When the only thing left is the special effects  
But I'm starin' at the camera like, "I ain't dead yet"

Gotta get so high to decompress  
And whoever survives gets to clean the mess  
We gotta evolve, develop what's next  
We gotta evolve, develop what's next  
And I ain't even tryin' to leave my nest  
'Cause when I do, I realize that I'm the least impressed  
We gotta evolve, develop what's next  
We gotta evolve, develop what's next  
And I don't know if I believe in death  
But I believe in the scars that you collect and protect  
We gotta evolve, develop what's next  
We gotta evolve, develop what's next  
And it'll all make sense if you hold your breath  
But how you gonna grow if there's no regrets?  
We gotta evolve, develop what's next  
We gotta evolve, develop what's next

Last but not least, last but not least  
Last but not least, last but not least  
Last but not least, last but not least  
Last but not least, last but not least  
Last but not least, last but not least
