

Space Is Safe

Atmosphere

Even if we both believe in change
We will need these memories erased
Keep it in a space that's safe
Keep me in a space that's safe

You said that you're concerned that I suffer from depression
I said that I think you're reaching for a weapon
And honestly you probably right
But not tonight satan you obviously want me to fight
Like that's the ah
That you're thirsting for
Maybe that's the only thing I've got worth working for
I said baby you don't wanna see me freestyle
She said maybe you should just go to sleep now

Even if we both believe in change
We will need these memories erased
Keep it in a space that's safe
Keep me in a space that's safe

You said that my ear to the door
Knee to the floor
Trying to listen for the clicks crack the code like a high score
I might even whisper
I'm trying to be speechless
The amplified voice is just a sign of our weakness
We act like we're trying to push it over the edge
But some of y'all don't even use soap on your legs
Got a lot of excuses to stop what you're doing
Phone died trying to binge watch the revolution

Even if we both believe in change
We will need these memories erased
Keep it in a space that's safe
Keep me in a space that's safe
