

Cross Country Atom and His Package Tour Via Bicycle

Atom and His Package

I want to ride my bike with Mike across the country
I'll record the package's music, yeah, I'll burn a set on CD
Some will complain, though duh, it's the same thing
I'll build a weird looking hollow box with lots of lights on it
flashing

Raise your head, raise your head,
Raise your head it's a long day coming
Raise your head, raise your head,
Raise your head it's a long day coming

We'll ride all day, play a show around every fourth night
We won't have any merchandise,
It'll be punk as fuck, touring on bikes
We may whine, just cause we're hungry
Mike, think about all the candy we could eat
Exercise equals guilt-free

Raise your head, raise your head,
Raise your head it's a long day coming
Raise your head, raise your head,
Raise your head it's a long day coming

Raise your head, raise your head,
Raise your head it's a long day coming
Raise your head, raise your head,
Raise your head it's a long day coming
