

# Dance of Death

Atomic Rooster

Ancient dreams survive on ice  
Fade in secret by your lies  
Drink the bitter cup now  
If you dare

Speaking clocks repeat her name  
Lost in countless halls of fame  
Broken caskets hide forgot adrift

A game of life the dance of death  
You pay the price I'll take the rest  
A game of chance with no recall  
One single slip I'll take it all

Candles drop with silent fear  
As the finger points to you  
Deadly laughter twists my crooked smile

Silence fed your untrue love  
Only she can take your place  
You have life while she dies in my arms

A game of life the dance of death  
You pay the price I'll take the rest  
A game of chance with no recall  
One single slip I'll take it all

A game of life the dance of death  
You pay the price I'll take the rest  
A game of chance with no recall  
One single slip I'll take it all
