

# Metal Minds

Atomic Rooster

Our minds are made of stainless steel  
And not of living things  
Metal minds will keep you warm tonight

Neatly packed in plastic boxes  
Tied with imitation string  
Metal minds will keep you warm tonight

Plug us in and switch us on  
The living, thinking mind is gone away  
Tonight

Metal minds will keep you warm tonight  
Tonight

A surrogate humanity  
To kill the pain of life  
Metal minds will keep you warm tonight

We will be all mankind's friends  
Your freedom is the only price  
Metal minds will keep you warm tonight

Plug us in and switch us on  
The thinking, living mind is gone away

Metal minds will keep you warm tonight  
Metal minds will keep you warm tonight  
Metal minds will keep you warm tonight  
Tonight

People die and children cry  
Give just a passing glance  
Metal minds will keep you warm tonight

You should have tried to do much better  
While we really had the chance  
Metal minds will keep you warm tonight

Plug us in and switch us on  
The thinking, living mind is gone away

Metal minds will keep you warm tonight  
Metal minds will keep you warm tonight  
Metal minds will keep you warm tonight

Plug us in and switch us on  
The thinking, living mind is gone away

Metal minds will keep you warm tonight  
Metal minds will keep you warm tonight  
Metal minds will keep you warm tonight

Plug us in and switch us on  
The thinking, living, breathing mind is gone

Metal minds will keep you warm tonight

Tonight
