

Time

Atomic Rooster

Time is going through the motion
Drowning tears in one vast ocean
River flee from valley fire
Can the mountains climb no higher?

Frozen in a sea of sorrow
Dream away, forget tomorrow
Words will always be unspoken
Promises will soon be broken

Driving down the endless highway
Time is starting to go my way
Find the people who will know why
Love will lose and time will go by

Circling in an endless season
Stop and ask yourself the reason

Time marches on

Everything remains the same
You will find
Though the stars lose their brightness
One by one

The tick of a clock
That never stops
