

Reasons

Atozzio

Were no different from the rest
Sometimes we argue and got to bed mad
(Stay on your side)
Sometimes I hate my best friend (taking all my nerves)
But I'm gonna love you girl 'cause you're better than the rest.

We go back before (people always say)
But we... but then just can't relate.
Don't we make fight most of the time
In front the outside doesn't look right
(Doesn't look right)
I know it's time... clarify
They don't like I do what make to love you.
And then go the reasons why why why
Here goes the reason why why why
Here go the reason why.

Sometimes you're my enemy hate to love you
But it seems to promise...
They just don't get you and me
But we may... public which you don't embarrass me
