

# No Control

Atreyu

Yeah

I think I've said enough  
But I'm not thinking anymore  
Adrenaline has pumped me up  
And I can't even see the floor  
My vision's blurred and I'm screaming

Down in a hole, I think I'm losing control  
Of all the voices screaming out in my head  
(No control)  
So far gone  
Feel like it's been so damn long  
Since I could shut my fucking mouth instead  
(I've got no control)  
I got no control  
(No control)

You're just a little more  
But it's more than I need  
A self-afflicted wound  
This time the knife has cut too deep  
I'm on the floor and I'm bleeding

Down in a hole, I think I'm losing control  
Of all the voices screaming out in my head  
(No control)  
So far gone  
Feel like it's been so damn long  
Since I could shut my fucking mouth instead  
(I've got no control)  
I got no control  
(No control)

Down in a hole, I think I'm losing control  
Of all the voices screaming out in my head  
(No control)  
So far gone  
Feel like it's been so damn long  
Since I could shut my fucking mouth instead  
(I've got no control)  
I got no control  
(No control)
