

Save Us

Atreyu

Can you see the smoke rising
From the bodies of the dead, dying
Tell me are you tired of the lost, lying
Can you feel your fucking soul, crying

Carry the fire
There's darkness in us all
If we don't burn brighter
Who's gonna save our souls?
Save us

Save us

The whole damn world is ending
But they're pretending
That everything is gonna be alright
These are your last days now
Will you stay down
Or will you raise hell, fight

Carry the fire
There's darkness in us all
If we don't burn brighter
Who's gonna save our souls?
Save us

Who's side will you ride with
Will you just stay silent
RIOT
RIOT
We won't stand in a line compliant
Time for defiance, time for a riot

Carry the fire
There's darkness in us all
If we don't burn brighter
Who's gonna save our souls?
Save us

Save us

Save us

Save us

Save us
