

## Love Is Dead

Atrocity

I feel a cold breath of wind  
Black sky in mourning-veil  
I see no worth-living reason  
Oh no,  
It's driving me insane  
Pangs of love  
Never thought I would feel this way  
I see your face in every cloud  
And I say to myself  
Don't let me, let me fade away

Love is dead

I walk through desert fields  
Black ravens surrounding me  
I have no more jest for life  
No more,  
I'm bleeding from inside  
A once opened heart  
Never thought I would feel this way  
I search for any reason or cause  
Which I could never find  
So I blame myself for things I don't understand

Love is dead

All my life is pain  
Drowned in tears  
Never thought I would feel this way  
Everyday I die once more  
My heart turns black  
Never again safe and warm

Love is dead
