

Best mistake

Attack Attack!

I held my breath as time stood still
Just for you
My eyes ran dry
To my surprise
Just for you
These promises that have been made
Just for you
The world flies by but I'll take my time
It's all good

Just for you, just for you
You're the best mistake that I made
One that I won't take for granted

I watch you sleep
My heart skips beat
Just for you
I'm nervous still but I'll come through
Just for you
The world flies by but I'll take my time
It's all good

Just for you, just for you
You're the best mistake that I made
One that I won't waste

Just for you, just for you
You're the best mistake that I made
One that I won't take for granted

Just for you, just for you
You're the best mistake that I made
One that I won't take for granted
