

Big Booty Britches

Attack Attack!

Yippee ki-yay, yippee, yippee ki-yay
Leave me on read, mama, drive me insane
Yippee ki-yay, yippee, yippee ki-yay
Leave me on dead, pourin' shots on my grave

I'll beg the way you want me to
You write your name in black-and-blue
Anytime and anywhere
'Cause you don't care
Don't care

Make my day
I live to feel the pain
So come and cut me off or keep me breathing
Lose it all and you're the reason
Hate the taste
I need you in my veins
So come and tie me up and leave me bleeding
Call it love, I call it treason

Yippee ki-yay, yippee, yippee ki-yay
Leave me on read, mama, drive me insane
Yippee ki-yay, yippee, yippee ki-yay
Leave me on dead, pourin' shots on my grave

Nails in my skin, baby, it's a win-win
Tell me what I'm worth 'cause I love to get it, get it first
Drag me down, throw me out, kick me to the curb
Call it love, call it war, baby, do your worst

Make my day
I live to feel the pain
So come and cut me off or keep me breathing
Lose it all and you're the reason
Hate the taste
I need you in my veins
So come and tie me up and leave me bleeding
Call it love, I call it treason

I'll beg the way you want me to
You write your name in black-and-blue
Anytime and anywhere
The end of my rope leads back to you

Yippee ki-yay, yippee, yippee ki-yay
Leave me on read, mama, drive me insane
Yippee ki-yay, yippee, yippee ki-yay
Leave me on dead, pourin' shots on my grave

Make my day
I live to feel the pain
So come and cut me off or keep me breathing
Lose it all and you're the reason
Hate the taste
I need you in my veins
So come and tie me up and leave me bleeding
Call it love, I call it treason

So come and cut me off or keep me breathing
Lose it all and you're the reason
So come and tie me up and leave me bleeding
Call it love, I call it treason
