

Blood On The Walls

Attack Attack!

Excuse the mess
I just had to give you all of me
I'll take your wrath
I won't take a half apology
You drop me in a hole like ketamine
Six feet where you leave what's left of me
Made a home where I thought I'd never be
Look what you've done

Blood on the walls
Dip the brush in my veins
Hate how I love what you've done with the place
Every night we play a game of chess
Black and white
But now I'm seein' red
Blood on the walls
Baby don't make me beg
Beg for death
Beg for death

I can't escape cause I need you like an enemy
Climb in my cage
You can end me like a tragedy
You drop me in a hole like ketamine
Six feet where you leave what's left of me
Made a home where I thought I'd never be
Look what you've done

Blood on the walls
Dip the brush in my veins
Hate how I love what you've done with the place
Every night we play a game of chess
Black and white
But now I'm seein' red
Blood on the walls
Baby don't make me beg
Beg for death
Beg for death

Why do I love it when you treat me like a piece of meat
Cut me up til there's nothing really left of me
Good thing there's such thing as double jeopardy
Cause every night you make the bedroom a murder scene

Blood on the walls
Dip the brush in my veins
Hate how I love what you've done with the place
Every night we play a game of chess
Black and white
But now I'm seein' red
Blood on the walls
Baby don't make me beg
Beg for death
Beg for death
Beg for death
