

## Chainless

### Attack Attack!

Too many voices to count  
I'm getting sick of the sound  
I gotta find a way out  
I got a hunger for thrill  
I only eat what I kill  
My demons run for the hills

I slide the knife out of my back  
To cut the noose around my neck  
Embrace my fate, deny my flesh  
Boots strapped, cock back and resurrect

Break my cage, I'm the enemy, enemy  
Can't hold me, I am chainless  
Take my pain like a remedy, remedy  
Cut me up 'til I'm painless  
Come on, light me up, it still ain't enough  
'Cause I was born to take it  
Break my cage, I'm the enemy, enemy  
Can't hold me, I am chainless

If you're gonna be weak, then you better beware  
Life bites back and it doesn't fight fair  
Pick it up if you ain't scared  
No one dies from a nightmare

Break my cage, I'm the enemy, enemy  
Can't hold me, I am chainless  
Take my pain like a remedy, remedy  
Cut me up 'til I'm painless  
Come on, light me up, it still ain't enough  
'Cause I was born to take it  
Break my cage, I'm the enemy, enemy  
Can't hold me, I am chainless

I am the enemy

If you're gonna be weak  
Then you better beware  
Life bites back and it doesn't fight fair
