

# Concrete

Attack Attack!

Now pour concrete on it

Something inside  
You can't help but pick that poison grape vine  
Bringing you right back  
Sticking to you like death on a doorstep  
Don't you hate it get awakened in a cold sweat  
Time to break away, there's a way around this  
An eleventh hour off-switch

You want it gone, the broken promise  
Truth hurts but let's be honest  
Cut deep like a switchblade prophet  
Sink in right to you

Fallout from the chain reaction  
It all went radioactive  
You put the nail in the coffin  
Now pour concrete on it

Don't leave it to time  
Load up the barrel  
Aim for the eyes  
Seal up the shadow

Sticking to you like death on a doorstep  
Don't you hate it, get awakened in a cold sweat  
Time to break away, there's a way around this  
An eleventh hour off-switch

You want it gone, the broken promise

Cut deep like a switchblade prophet
