

Dear Wendy

Attack Attack!

I've got to thinking
This ain't right
I'm drowning every single night
I finally see your travesty
Defining every part of me

I draw the line
No more wasting my time
This world is mine
I'm not a part of your design

I'm done feeling this low
When every breath I take
You take from me
You take from me
Like rot in a willow
What's left alive in me
Is dead inside like you

You let the past define me
Just know I'll stand my ground
With every bone inside me
I swear I'll take you down

I'm done feeling this low
When every breath I take
You take from me
You take from me
Like rot in a willow
What's left alive in me
Is dead inside like you

I won't be dead inside like you
I won't be dead inside like you

I'm done feeling this low
When every breath I take
You take from me
You take from me
Like rot in a willow
What's left alive in me
Is dead inside like you

I won't be dead inside like you
I won't be dead, dead inside like you
I won't be dead inside like you
