

Dr Shavargo Pt 2

Attack Attack!

As always it's all for you
As always it's all for you
As always it's all for you
As always

I'm all yours, just take me now
I'm all yours, just take me now
I'll rip out your heart and your eyes until,
You see the love I have inside,
For you carry on this way,
And I will go and learn the truth.
I will go and let this down for me,
And it's all for you,
Take me never let me go,
Take me, I'll go and seek the truth

I cannot live without you near,
I can't go on without you here,
You're the reason why,
Simply because you're everything,
I want and more.

Take my hand, I'll keep you safe,
Take my hand.
Take my hand, I'll keep you safe,
Take my hand.

The truth will set you free,
Just hold my hand,
I'll keep you safe, I know you're confused,
But I will always refuse to take you for granted.

I'll rip out your heart and your eyes until,
You see the love I have inside,
For you, carry on this way, till you will go
And see the truth.

Come on girl, I've been waiting for you
To make your move
Come on girl, I've been waiting for you
To make your move

As always it's all for you
As always it's all for you
