Dr. Shavargo

Attack Attack!

As always, it's all for you. (2x)

I'm all (I'm all yours) yours, just take (take me now) me now.

I'll rip out your heart and your eyes until,
You see the love I have inside.
For you carry on this way, and I will go and learn the truth.
I will go and let this down for me, and it's all for you,
Take me, never let me go,
Take me, I'll go and seek the truth.

I cannot live without you near,
I can't go on without you here.
You're the reason why.
Simply because you're everything I want and more.

Take my hand, I'll keep you safe. Take my hand... (2x)

The truth will set you free, just hold my hand,
(screamed: The truth will set you free, hold my hand)
I'll keep you safe, I know you're confused,
(screamed: why can't you like love?)
But I will always refuse to take you for granted.
(screamed: I will love you...)

I'll rip out your heart and your eyes until,
You see the love I have inside.
For you carry on this way til you will go and see the truth.

Come on girl, I've been waiting for you to make your move.

As always, it's all for you. (2x)
