

Everyone Knows

Attack Attack!

Just take a moment to forgive
But make certain that you don't forget
Count the minutes and the hours
Then realise your days are numbered
Time ticks by and it's written over your face
The time has come for letting go
There's no sense now in finding a hiding place
Cos everyone already knows
Everyone already knows

We can't stop now, we won't slow down
This time we wait for nothing
Every little thing that we saved for (saved for)
Is coming back around
Coming back around

We can't stop now, we won't slow down
This time we wait for nothing
Every little thing that we saved for (saved for)
Is coming back around
Coming back around

Just take a moment to forgive
But make certain that you don't forget
Count the minutes and the hours
Then realise your days are numbered
Time ticks by and it's written over your face
The time has come for letting go
There's no sense now in finding a hiding place
Cos everyone already knows
Everyone already knows

We can't stop now, we won't slow down
This time we wait for nothing
Every little thing that we saved for (saved for)
Is coming back around
Coming back around

We can't stop now, we won't slow down
This time we wait for nothing
Every little thing that we saved for (saved for)
Is coming back around
Coming back around

Woah, woah, only we can fail us now (4x)
We can't stop now, we won't slow down
We can't stop now, we won't slow

We can't stop now, we won't slow down
This time we wait for nothing
Every little thing that we saved for (saved for)
Is coming back around
Coming back around

We can't stop now, we won't slow down
