Attack Attack!

Father as he came
Father as he came

He came to all, remember when he comes
At this time forget it seems important
Bottoms up to Jesus

With this time we can get for now
We'll be the best we can
They'll be a time we'll fall
So down she'll fall for

Time will fall for, it will become
The end with a change. It will change
Me, will be with a change will fall on
With you we'll die, will become a change

And if she wants to run, let her go
And if she wants to run, let her go
And if she wants to run, let her go
And if she wants to run

And he'll just to take a broken
I cant make it failing because I care
Did you still see my faith and still
Did you apply? Did you apply
I cant make the broken
I will make him again and I'll make it again

And you know that I am creating to stuff
You just you have missed out on me
When you went so that I wasn't real
Weren't for me to fail

Time will fall for, its time, let go
Will not with a change

Will I will kill the chest with a change
Will fall for, because we'll die with mercy
If change will fall on
