

Jump Jump!

Attack Attack!

Everybody jump up, jump up

Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!

When they turn the music off
When they put you in a box
Who will you be when it's all
Over and everything's gone?

Picture perfect
Never having purpose
Sitting in a waiting room
Waiting for the verdict

It's all anyone's guess
One foot in front of the next
We're staring over the edge
What if we just
Live like we only get
One shot and one second left?
Who cares if we make a mess?
What if we just
Face our human nature
Take a leap of faith 'cause
It's all anyone's guess
One foot in front of the next
We're staring over the edge
What if we just

Jump? Jump!
Jump, jump!
Jump, jump!

When they turn the music off
When they put you in a box
Who will you be when it's all
Over and everything's gone?

It's all anyone's guess
One foot in front of the next
We're staring over the edge
What if we just
Live like we only get
One shot and one second left?
Who cares if we make a mess?
What if we just
Face our human nature
Take a leap of faith 'cause
It's all anyone's guess
One foot in front of the next
We're staring over the edge
What if we just

Jump? Jump!
Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!

Go down swinging
Bleeding but it's worth it
Better dying on your feet
Than ashes in a furnace

It's all anyone's guess
One foot in front of the next
We're staring over the edge
What if we just
Live like we only get
One shot and one second left?
Who cares if we make a mess?
What if we just
Face our human nature
Take a leap of faith 'cause
It's all anyone's guess
One foot in front of the next
We're staring over the edge
What if we just

Jump? Jump!
Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!
Jump, jump!
