

Spitfire

Attack Attack!

Bullets black out the sun
Spitfire
Spitfire

Fire away
Reckoning
Coming to take your soul while you shiver
Silently
Hide and pray
But that won't stop the end I'll deliver

Crosshairs
You're a dead man walking
Sights set, I'm the vulture stalking
Circle above the victim below
Watching you run
Is food for the soul

Black out the sun
Black out the sun
Black out the sun

Bullets black out the sun
Spitfire
Rain blood on my enemy
Watch me spit fire
Only way to find my serenity
Black out the sun
Fire
Black out the sun
Black out the sun

Fire and flames
The sweet decay
The hunter knows he's God to the hunted
The numbered days
The deepest grave
You already know what's coming

Spitfire
Rain blood on my enemy
Watch me spit fire
Only way to find my serenity
Black out the sun
Fire
Black out the sun
Black out the sun

Ackkkkkk
