Too bad son

Attack Attack!

I'm aware but I'm not quite sure if
Everything that you said has registered in my head
I've been waiting for the right time
For this lesson to begin
I'm always looking for an answer
It keeps me guessing
Cause I never know which way to turn
Are we headed for disaster?
It keeps me guessing, always keeps me guessing
Too much, too much is never enough
Too much, too much too young
I'm aware but I'm not quite sure if
Everything that you said is making sense in my head
I've been waiting for a long time
For this lesson to begin
Tired of looking for an answer
But being patient is a lesson that I never learned
I know we are headed for disaster
I've seen the ending of this story and it gets worse
I can't stop thinking about it
Too much, too much is never enough
Can't stop, stop thinking about it
Too much, too much too young
I can't stop thinking about it
Too much, too much is never enough
Can't stop, stop thinking about it
Too much, too much too young
Close your eyes and don't be frightened
You'll be fine tonight
Close your eyes and don't be frightened
You'll be fine tonight
Close your eyes and don't be frightened
You'll be fine tonight
Close your eyes and don't be frightened
You'll be fine tonight
Close your eyes and don't be frightened
You'll be fine tonight
Close your eyes and don't be frightened
You'll be fine tonight
I can't stop thinking about it
Too much, too much is never enough
Can't stop, stop thinking about it
Too much, too much too young
I can't stop thinking about it
Too much, too much is never enough
Can't stop, stop thinking about it
Too much, too much too young
(Close your eyes and don't be frightened
You'll be fine tonight)
