

Walk On Water

Attack Attack!

Wait for me through the rain
I look up, you let me down
Gotta walk on water to stand my ground

Can't wake up but I can't sleep
Nothing I can do, thought you'd be there for me
If I got no one, then I can save myself
I say an empty prayer knowing it ain't gon' help

If I'm alone, say it, I'll do it on my own
Won't make you stay 'cause I know you won't

Wait for me through the rain
One foot in and one foot out
I held my breath, you let me drown
I don't need you to stay
I look up, you let me down
Gotta walk on water to stand my ground
Gotta walk on water to stand my ground

Ain't no peace and quiet in my head
It's time that I move out and leave all my regrets
One more step, the same damn hill
If you won't break my fall, then maybe no one will

Wait for me through the rain
One foot in and one foot out
I held my breath, you let me drown
I don't need you to stay
I look up, you let me down
Gotta walk on water to stand my ground

I look up, you let me down
Gotta walk on water to stand my ground
Oh

If I'm alone, say it, I'll do it on my own
Won't make you stay 'cause I know you won't

Wait for me through the rain
One foot in and one foot out
I held my breath, you let me drown
I don't need you to stay
I look up, you let me down
Gotta walk on water to stand my ground

I look up, you let me down
Gotta walk on water to stand my ground
I look up, you let me down
Gotta walk on water to stand my ground
