

Without You

Attack Attack!

I hope you understand
That I'd pull you from bottom
Two hearts drawn in the sand
Sending you a message in a bottle
Even when we're worlds away
Your afterglow will never fade
'Cause you're the only one that I want

Say it with me now
Until the sky falls down
Stay with me now, head in the clouds
'Cause I don't wanna live without you

'Cause I don't wanna live without you
'Cause I don't wanna live without you
'Cause I don't wanna live without you
'Cause I don't wanna live without you

I hope you understand
That we could live forever
As two hearts drawn in the sand
Now we're walking on the water

Say it with me now
Until the sky falls down
Stay with me now, head in the clouds
'Cause I don't wanna live without you
'Cause I don't wanna live without you
'Cause I don't wanna live without you

'Cause I don't wanna live without you
'Cause I don't wanna live without you
'Cause I don't wanna live without you
'Cause I don't wanna live without you

'Cause I don't wanna live without you
'Cause I don't wanna live without you
