

Slender Loris

Attack In Black

When I wake
Then I see
Someone's open eyes

when I wake
I see
Someone's silent eyes

would you stay for a while?
keep good company?
did you know what it means to be underneath?

When the light comes I'll be gone
when the morning is upon you
when the evening sees the daylight coming through
I know that they're gone

If I know, you will know
where I'm going to
if you go, I won't know
where you're going to

to the ground I can see
where you pass your eyes
when the sun settles in
I'll say my goodbyes

When the light comes I'll be gone
when the morning is upon you
when the evening sees the daylight coming through
I know that they're gone

when the evening sees the daylight coming through
I know that they're gone
