

# World Destroyer

Attacker

Out of the sky it comes  
Trailing death behind  
Iron oxide fury  
Ender of worlds arrives

Hidden in space it resides  
Burning sphere o doom  
In elliptical orbit it flies  
Soon to make Earth a tomb

A system unto itself  
Flaming giant revolves  
Its surface a fiery hell  
No chances for man to evolve

Facing mankind's extinction  
Praying for more time  
Wormwood it comes from on high  
Now make yourselves right  
with the Lord

CHORUS:

FEAR WORLD DESTROYER  
KILLER OF MANKIND  
FACE WORLD DESTROYER  
ENDER OF OUR TIME

Oh, fear the coming  
of the burning star  
Approaching with fury  
it comes from afar

SOLOS:

You've lived your lives in sin  
And now the end begins  
No hope for you, my friends  
Nibiru now spells the end

CHORUS
