

# Blackout

Attila

Everybody put your hands up

Welcome to the blackout

This party's just begun, I hope that I don't blackout

Another shot or two and everybody blackout

Let's get this rager started, here we fucking go

This party's lit as fuck, everybody's turning up

I just walked in the door and someone handed me a blunt

Let's take a shot of whiskey then let's rip a beer-bong

This girl walked up to me and then she pulled her tits out, oh

I think I'm gonna blackout

This party's sick as fuck, I hope that I don't blackout

Another shot or two and everybody blackout

I'm feeling dizzy but who really even gives a fuck

Oh shit, this party turned into a fight club, I can't believe it  
The drugs, the booze, the sex, the fights, this party's overboard

Is this a dream or am I stuck in a movie?

Eugh, I'm gonna pass out, eugh, I'm gonna blackout

Then I take another hit and it's clear to me

Everything will play out like it's gonna be

Never gave a single fuck, are you feeling me?

This is just how we get down, fuck a enemy

Then I take another hit and it's clear to me

Everything will play out like it's gonna be

Never gave a single fuck, are you feeling me?

This is just how we get down, fuck a enemy

Now everybody's blackout

This party's hit the limit, I'm about to blackout

Another shot or two and everybody blackout

Somebody hold my beer (Ha)

Let's fucking go

This is getting really fucked up

Somebody called the fucking cops, are you kidding me?

Somebody hide the drugs, I'm jumping out the window

Everybody run

I'm never going to jail again

Too drunk to run, fuck it

Dizzy as fuck, somebody hold my beer

Why am I passed out naked in Taco Bell?
