

# Let's Get Abducted

Attila

Supernatural thoughts in my head  
Confusing, intense, like I'm stuck in limbo,  
instead I'm living ahead  
It's unexplainable, I'm irrational  
Without being a son of a bitch  
But I'm on another dimension again  
Do you see the bright light above?

You weren't supposed to be here you know this  
But who am I to judge?  
In the end we're all just foreign beings  
Addicted to the touch

I didn't want to like you  
But now I'm falling in love  
The type of love you give me  
It's feeling like the drugs

Let's get abducted  
Let's get abducted  
Let's get abducted

Extraterrestrial life, as our life was taken  
It's not, that we'd seem to run away and hide  
They just want to rage hard  
It's unexplainable, I'm irrational  
Without being a son of a bitch  
But I'm on another dimension again  
Do you see the bright light above?

Pass the bottle, pass the blunt  
Press repeat now we're all losing touch  
Unexpected, unexplored  
Go with the flow because I'm getting bored

I didn't want to like you  
But now I'm falling in love  
The type of love you give me  
It's feeling like the drugs

Let's get abducted  
Let's get abducted  
Let's get abducted

I didn't want to like you  
But now I'm falling in love  
The type of love you give me  
It's feeling like the drugs

Pass the bottle, pass the blunt  
Press repeat now we're all losing touch  
Unexpected, unexplored  
Go with the flow because I'm getting bored  
Pass the bottle, pass the blunt  
Go with the flow

Let's get abducted

Let's get abducted  
Let's get abducted

Put me in your spaceship and take me somewhere new  
Get me out of here  
Riding something new
