

Toxic

Attila

FUCK THIS
I always knew that we
Wouldn't work because you're
TOXIC
And now it needs to come to an end before I LOSE IT

You made me into this monster
You'll feel the wrath of consequence
And if you thought I was bad before
Then say hello to satan cuz I'm knocking at your door

Try to take advantage of me
I've got the upperhand
Fill me with your toxicity
And I will bathe in it
Try to take advantage of me
I've got the upperhand
Fill me with your toxicity
You fucking bitch

YOU FUCKING BITCH

Let me out let me out

FUCK THIS
I always knew that we wouldn't work because you're
TOXIC
And now it needs to come to an end before I LOSE IT

You brought me into this darkness
But you didn't think shit through
You hate me
You leave me
The best part is you fucking need me

You'll never forget

I've made a lot
Stayed at the top
And I swear to god
My shit won't stop

Choices you'll regret

Your toxic drive
Fuckin up my vibe
And I swear to god
If this shit don't stop

You'll never forget

I gave you all
Brought you to the top
And you shot me down
Like a inner city cop

Choices you'll regret

Your toxic drive
Fuckin up my vibe
And I swear to god
If this shit don't stop

I fucking made you bitch

FUCK THIS
I always knew that this wouldn't work because you're
TOXIC
And now it needs to come to an end before I LOSE IT
