

Villain

Attila

Why am I a narcissistic asshole
Feeding off everyone and sucking out their soul

Another pill to take
Another drink to drink
Another bitch to fuck
This is fun, this is fun
Another song to sing
Roll up some shit to smoke
Lets throw another party
Everybody overdose

I am a villain
A fucking villain

Bang your fucking head
Until you're fucking dead
Never met a problem I couldn't solve with alcohol
Bang your fucking head
Until you're fucking dead
If you got a problem kill em all kill em all

I got some cash to throw
We got some rails to blow
Your girlfriend wants to fuck
Tell her meet me at the show
Another song to sing
Roll up some shit to smoke
Lets throw another party
Everybody overdose

I am a villain
A fucking villain

If you still about it COME AND GET IT

Bang your fucking head
Until you're fucking dead
Never met a problem I couldn't solve with alcohol
Bang your fucking head
Until you're fucking dead
If you got a problem kill em all kill em all

We could all die tomorrow and it wouldn't mean shit

Another pill
Another drink
Another bitch
Another party
This is never ending

She wanna fuck me
Cuz she knows that I'm a felon
I say welcome to the party

Another pill
Another drink

Another bitch
Another party
This is never ending

She wanna fuck me
Cuz she knows that I'm a felon
I say welcome to the party
