

# Before I Drown

Aubrey O'Day

Dreams wrapped up in chains  
Engraved with your name  
All in vain  
Waves swept me away  
I called out your name  
But you never came

My life just flashed before my eyes  
I know I won't survive it if I don't escape  
Say goodbye before I take my last breath  
Make me want to forget throw me away

You watched me fall,  
You helped me down,  
Will you pull me back  
Before I drown  
Where's your heart,  
Please let me out,  
Will you pull me back  
Before I drown

Strong, your tide is strong  
I've been treading so long  
My will is gone  
Saved, can I be saved  
Are you entertained  
My loving is pained

You left me unjust to feel wanted  
Damn I hate your ego  
Why can't you change  
Look how deep you got me here I'm sinking  
Willingly I'm saying  
Just in case

You watched me fall,  
You helped me down,  
Will you pull me back  
Before I drown  
Where's your heart,  
Please let me out,  
Will you pull me back  
Before I drown

I drown - I drown - I drown  
I drown - NO - drown...  
drown... drown... drown...

Where's your heart,  
Please let me out,  
Will you pull me back  
Before I drown

You watched me fall  
You helped me drown  
Will you pull me back  
Before I drown

Where's your heart  
Please let me out  
Will you pull me back  
Before I drown
