

# La, La, La

Auburn

Can't even hang out with friends  
Without you blowing up my phone  
Why you all in my ear?  
Like where am I and when am I coming home?

Why you listening to your friends?  
They don't wanna see us be  
Boy, you better take it slow, or I'll be history

You've got to give me my space  
So quick to calling my name  
Boy, you better recognize  
My love is one of a kind

You drive me up to the ceiling  
Boy, there's no need for the screaming  
You know that you are my world  
But I'm sick and tired of the

La, la, la, la  
That's all I hear you saying, la, la, la, la  
Tired of the complaining, la, la, la, la

La, la, la, la, la, la, la, la  
La, la, la, la  
So why you up in my ear?

So I went out to club  
I just wanna have some fun  
I guess someone told you  
I was with some other boy

'Cause when I got back home  
Put my foot through the door  
All the lights came on  
Then came the la, la, la, la

You've got to give me my space  
So quick to calling my name  
Boy, you better recognize  
My love is one of a kind

You drive me up to the ceiling  
Boy, there's no need for the screaming  
You know that you are my world  
But I'm sick and tired of the

La, la, la, la  
That's all I hear you saying, la, la, la, la  
Tired of the complaining, la, la, la, la

La, la, la, la, la, la, la, la  
La, la, la, la  
So why you up in my ear?

Why you up in my ear?  
Why you up in my ear?

Why you up in my ear? Oh

Why you up in my ear?

Why you up in my ear?

Why you up in my ear?

(Break it down)

La, la, la, la

That's all I hear you saying, la, la, la, la

Tired of the complaining, la, la, la, la

La, la, la, la, la, la, la, la

La, la, la, la

So why you up in my ear?

(Break it down)

La, la, la, la, la, la, la, la

La, la, la, la, la, la, la, la

So why you up in my ear?

(Break it down)
