

Heaven

Audien

Miss the way it used to feel
Hurts so bad, I know it's real
Don't know what to do to make it stop
Waitin' for the wound to heal
I don't think it ever will
Call you, but I know you won't pick up

All I want is to hear your voice again
Ask you where you've been
Talk about nothin'
All I want is to hear your voice again
Are you listenin'?

I wish Heaven had a phone
I'd call you every day, I'd call you every day
I wish Heaven had a phone
So I can hear you say "It's gonna be okay"
I wish Heaven had a phone (I wish it did)
I wish Heaven had a phone

Don't know how to shut it off
Hear your name, my stomach drops
Wish that this was only just pretend (Pretend)
I could never let you go
I still hold you close
If you never say goodbye, it's not the end

All I want is to hear your voice again
Ask you where you've been
Talk about nothin'
All I want is to hear your voice again
Are you listenin'?

I wish Heaven had a phone
I'd call you every day, I'd call you every day
I wish Heaven had a phone
So I can hear you say "It's gonna be okay"
I wish Heaven had a phone (I wish it did)
I wish Heaven had a phone
