

# Pharaohs

Audien

She got dark skies and black eyes  
Wear a gold dress at first line  
Like a spirit uncaged just taking over me  
And I would stair up into the sky  
Together, our star will never die  
If Gods built us, so we could roll again

We could be Pharaohs watching as the world unfolds  
Living in another life, together as the sky ignites  
We could be Pharaohs watching as the world unfolds  
'Cause there's nowhere else I'd rather be  
Come and lie with me for eternity  
Like Pharaohs, like Pharaohs  
We can lie here like Pharaohs, like Pharaohs  
When we're lying here for eternity  
Like Pharaohs, like Pharaohs  
We can lie here like Pharaohs, like Pharaohs

Breathing in, breathing out  
I hear the words come out your mouth  
But don't say we're in love if we don't know where it ends  
We set eye on the desert road  
Never take it out what the future holds  
Now you cut the line here and get them by the world we know

We could be Pharaohs watching as the world unfolds  
Living in another life, together as the sky ignites  
We could be Pharaohs watching as the world unfolds  
'Cause there's nowhere else I'd rather be  
When we're lying here for eternity like Pharaohs

See the fear in your eyes, cuts me like a knife  
Leave the scars on my skin, human sacrifice  
Golden charm on my neck, got me paralyzed

Undressed in the night, got me screaming out  
Fighting oceans of water and seas of doubt  
We go back to the world that was burning out

We can lie here like...

Like Pharaohs, watching as the world unfolds  
Living in another life, that means it's just us tonight  
We could be Pharaohs watching as the world unfolds  
'Cause there's nowhere else I'd rather be  
When we're lying here for eternity like Pharaohs  
Like Pharaohs, so we can lie here  
like Pharaohs  
Like Pharaohs, we can lie here like  
Like pharaohs,  
Like Pharaohs.
