

Slide Away

Audien

There's still a full moon
With or without you
Flowers will still bloom
With or without you

I think it's done, I think we did our time
How will you feel when I turn off the lights and slide away
Slide away

Hold off
You're making me wanna stay
Too close
It's pushing me far away
Feels right
But nothing like yesterday
I think I gotta slide away
Slide away
I think I gotta slide away
Slide away

I feel like water
Slip through your fingers
And though I adore ya
We still can't be with ya (with ya)

I think it's done I think we did our time
How will you feel when I turn off the lights and slide away
Slide away

Hold off
You're making me wanna stay
Too close
It's pushing me far away
Feels right
But nothing like yesterday
I think I gotta slide away
Slide away
Oh, feels right
But nothing like yesterday
I think I gotta slide away
Slide away
I think I gotta slide away
Slide away
I think I gotta slide away
