

# Change My Name

Audio Adrenaline

Everywhere I went people knew my name  
Written on my face were the scars of fame  
I was known for the pride deep inside of me  
But you knew the man I was born to be

You called me when I had no life  
You reached me on a broken line  
You found me when I had no home  
You called me, You called me Your own

Go ahead and change my name  
And write a new song with this broken man  
I want a restart, so take my old heart  
It's Yours to burn your brand

Go ahead and change my name  
Cause the old man is deep in the grave  
No more chains, no more shame  
My God I've been remade, change my name

Everywhere I go I want the people to know  
I'm not hiding, got something to show  
Now that I'm yours, got nothing to fear  
I want a sign on my chest written perfectly clear
