

## Let Love

Audio Adrenaline

Love lets love forgets  
we don't need a world of regrets  
so let's love  
Let's love one another  
let's give love to the other  
Black or white, young or old  
everybody needs a little love to hold

Love is my light that lets me see  
love is my key that sets me free  
Love is right, love is good  
give it out, I know I should  
Love was shed on a tree  
look out world, Calvary  
I am glad I'm a victim of love

R: Let love, linger over Tokyo  
let love, soak down through Idaho  
Let love, stay like a Port-de-Pax  
Let love, let love

Love never envies, love never boasts  
giving out love you get the most  
Let love, let love  
let love go, let it flow  
Let it come out of you  
and let it show, love

R:

Let's love one another  
let's give love to the other
