

# Keep On Moving

Audio Bullys

One two  
Since the day I've spoken  
My home was broken to  
When the door was open  
I was out and smokin'  
I didn't look for trouble  
Trouble looked for me  
But that'd be a lie you'd see  
Me and trouble got along just fine  
Out getting pissed on the beer and the wine  
It didn't take long before I met people just like me  
Feel plot and foxy  
We made a little team, if you know what I mean  
Checked a few scenes  
Seen a few fiends  
Sprayed a few trains  
Played a few games  
Hung around with faces and names  
Went out with pretty young dames  
Young love and young flames

It's alright, just keep on moving

Wasn't nothing but sorrow in the house  
I wasn't there  
I went out  
With the boys just hanging about  
Playing round and acting like louts  
In them days overcoming our doubts  
Serving up just to keep a little clout  
Ploty introduced me to stealing  
I knew ol' mothers words now had lost their meaning  
Just stole paint to put up my name  
Pretty soon it all seemed the same  
So this was my brand new game  
Stone island, and Ralph Lauren  
That's what we were wearing then  
I loved them days so I look back again  
The club scene was banging at the time  
House and garish, pills and white lines  
Kurosawa little strain on the mind  
We dealt with it  
We were fine  
It felt like it was our time  
Seven, and the eight to the nine  
Hit ten, now let's climb  
Hit ten, now it's our time (cos it's our time)

It's alright, just keep on moving  
It's alright, just keep on moving  
It's alright, just keep on moving  
It's alright, just keep on moving  
It's alright, alright, so let's make it right

It's alright, alright, so let's make it right  
It's alright, just keep on moving  
It's alright, just keep on moving

We all wanna rise up in the world  
Stay in and make love with our girls  
When I look back it's all just a whirl  
And when I think back it's all just a swirl  
My mind moves to the music game  
And that's where my future seemed to lay  
Tommy d was the next man's name  
We made a few tracks and had a little fame  
But we didn't make that for fame  
We made a few tracks for mankind to pay (play)  
And that's true, what more can I say  
I'm not in the game to play  
I'm just in the game to say  
Everything's gonna be okay  
Don't stress cos there's always a way  
Doesn't matter if your jeans get frayed  
Cos there's no such word as afraid  
It took awhile but we made the high grade  
It took awhile but we made the high grade

It's alright, just keep on moving  
It's alright, just keep on moving  
It's alright, just keep on moving  
It's alright, just keep on moving  
It's alright, alright, so let's make it right  
It's alright, alright, so let's make it right
