Too many times I done gave you lil niggas chance after chance
I was raised by the OG's in my fam
I prefer only OG in my grams
With my day ones I don't need to expand
I don't need your advance
Don't need no crew don't need me a clan
Don't need no rappers just me and my fans
Billionaire that's what I see in my plans

Asking me to record the video lil baby turn into a lil freak on the cam
You niggas couldn't last a week in these vans
I don't know you please don't reach for my hand unless we negotiating
She wanna grow with me we cultivating
Talking about all the nations appropriation
If I could I'd cut off all association to whatever feel anything close to Reagan
They responsible for all the dope we slangin'
I done crowd surfed all in Copenhagen
Blessed, I'm far from them days I was hopeless bangin'
Now you see it's just Saint Laurent Denim
Watch for the snakes they gon fill you with venom
My woman black, she got ass she got rhythm
Feet off the moon and built the momentum

Too many times I done gave you lil niggas chance after chance
