Commas

Audio Push

Let's fuck up some commas
I promise that we ain't got nothing in common
She pull up on you and she stay with that drama
She pull up on me and she lay in pajamas
I do this shit rhyming
I do what I wanna, roll marijuana
Smack her ass while she cooking lasagna
Niggas switching gotta watch the iguanas
These niggas bitches man I call them Juwannas
I know you know about my reputation
I know you finna show me love when you see me in these streets dawg
Unless you hating
I know you know I went to that school of hard knocks
Just to get that education
I know you messy hoes all on my Snapchat and Instagram investigating
Warren G, I'm finna get to regulating
Use the blue dream for the elevation
And my new theme with no registration
Vroom Vroom! let the key through
My nigga did a dime
Touched down kissed his moms
Got to see his kids too
That's the type of shit we cheers to
See the snakes in the rearview
TD Jakes, we don't hear you
When we hear you it just ain't adding up
Playing these politics I've had enough
Growing up pass poor I had it rough
Now my body and passport tatted up
When we hear you we fast forward and all your stuff
The shit is just really not
What you think you should really stop
I'm after millz like a Philly cop
My girl TLC Chilli hot
She come through with that silly top
Got my toes curling in Benjy socks
B-O-Dub we got the city locked
Hit New York and do my Diddy Bop
Better yet hit my milli walk, that's how I really rock
I perfected the plan
You watch On Demand, I got checks in demand
I got connect they think connect is the fam
Now we seeing more commas than exit exams
Pay respect to the man

Give no fucks, yeah, we don't give no fucks
Live it up, yeah, gon' and live it up, yeah
Throw them bucks, yeah, gon' and fill my cup, yeah
Give no fucks, yeah, we don't give no fucks

They said I wouldn't do this
Alright
You ready? Yeah, yeah
Look I'm Oktane, I'm a fool with it
Lay back so I can cruise for you
Signed to Geffen and then got right to reppin'
And they ain't even know what to do with us

Got it right and brought my crew with me
Now these women acting too silly
Now these shows going too stupid
They say I'm on like it's news to me
Before Blackberry and the side scroll
Before that switched to iPhone
Before your chick got on my bone
And her number got on my phone
People told us that we couldn't do it
Then we did it twice and got them looking stupid
Zero contribution to accomplishments
Just insecurities and talking shit
A lot of talky talking but never walking it tho'
I see a open spot an parking that ho
I walk up in the mall and by a lot of flame
I do that cause I couldn't do that before
Stupid spending when your crew is winning
Second laps, so this a new beginning
Rent two Benz before half these rappers rap
And those rappers they act like they ain't know what happened
I made it back became the captain
Bring the camera, this that action
I'll be Michael, pick a Jackson
Understand you play the back hand
And you ready now let's get it crakin' (Woo)
That's yo baby momma (that's yo baby momma)
She knows that I got it yeah
You don't want no problems
But what she wanna do in private
Now drop it!
Really that nigga, really that really that nigga
I don't see it getting bigger
Understand this is exactly how the squad
Planned to be the biggest on this planet
Got my brothers on my team with me
Family over the greenery
Only real ones, pick the scenery
I don't care who don't agree with me
Easily I been the coldest nigga on my momma
I promise your favorite rappers don't want drama
And if they do grab my phone and call my squad up
I'm fuckin' up you, your homies and these commas
Let's fuck up some commas
Let's fuck up some commas yeah
Shit is a freestyle, I can do this all day
