Do Or Die

Audio Push

One time, look
I didin't see too much growin' up, growin' rough
Birthdays party wondering if my pop's showin' up
But, ten times outta teny never entended
Mama play that [?] so I was never offended
I just, starting writin' raps up on my kitchen table
Eatin' [?] noodes with no cable
Focussing on them biggest stack
You backtrack with the better [?]
Your girl text fast, I hit her back
Your boyfriend mad, I figured out
Models, no more groupies
We went from [?] to Gucci
And them niggas that I see rainy days with
Are the same niggas that I'm gettin' pay with
That's real life so raise your glass up
If you gettin' your cash up and gotta ask us
Keep it G don't gas us for them fast bucks
Lil niggas that blach up but we the last up
And ain't no lookin' past us
BOW!

Sundays, we cruisin' in my city with the AC
Blowing you can ride with me
Real game and I'm givin' in
Cause it started with a dream now I'm livin' it
In a word full of people that's tellin' you no
And a young generation that's sellin' their soul
I wanna judge but who am I?
So I choose a side cause it's do or die
It's do or die

It's do or die
And me
I'm ridin' to the beat or my own drum and hum
Prices on that guitar y'a watchin' drum
These girls are faker than they bad
Cause they can't sey what they feel
So I just focus on that pain that's all that's seems to be real
Because love is so dearly departed
And it's weird how we started
We used to be just the youngers
Now we're clearly the hardest
All my pretty home girls out here strippin' now
A sex and lame niggas for statist they just trippin' now
And me, everybody tell us how that we next
No more [?] all these girls they givin' me sex
As that [?] at the club is the same [?] givin' me checks
And them women you in love with all givin' me me stress, so
And this moment of proximity nigga
All I need is positivity nigga
Because my brothers, they got so many enemies nigga
But I'm just using this brain your girl givin' me nigga
I love this

Sundays, we cruisin' in my city with the AC

Young Veggies do or die
Kill the verse that suicide
In the hearse like who am I, John Doe head honcho
Young niggas run everythang I learn that, she pronto

Do your shit nigga get your cake, run your game
Count that change, stay in your lane and don't get slay
Get money straight like 46 days
I can get money like 46 ways
Constant, new shit I'm grindin'
Self-made, self-pay
She throw it back, she self-lay
