Hold up your peace signs for this  
Hold up your peace signs for this (Put them up)  
Hold up your peace signs for this

I'm your neighborhood love dealer (neighborhood love dealer)  
This for my gorillas  
That bang Badu and love Dilla, charging everybody  
Hit-Boy said "We The Plug nigga!" and the fee  
It's keepin' it G and speakin' the truth  
Which just so happens to be what I frequently do  
You need that work put AP in the stu'  
I go A-P-E in the booth, you touch me you get your fever reduced  
That boy cold, you so worry bout reaching the youth  
You ain't even in tune with keeping it you  
In '08 we start to innovate  
Ya tried to give a shade for what rappers is doing today  
Wait let me demonstrate  
They in the video dancing, ya praise it  
Simple 808 beat jammin', ya praise it  
Weird clothes and skinny pants, ya praise it  
And these here today, gone tomorrow songs is ya'll favorite  
So save it, ooh I got 'em mad  
Like back in my younger days, when I used to have  
The negro league jeans patched with the hat to match  
Pro Club inside out so you dumb nigga can see the tag  
Man if I gotta go out it's gonna be like the crocodile hunter  
What's that?  
Bitch that's doin' what I wanna  
With my heart to the corner and my chin to the cloud  
It's just the tape, wait 'til the album come out nigga

Stand back let a king get his space  
Let me find the livest people in the place  
What is the fuck is up?  
Sorry for cussing my moms is prolly listenin'  
But watchin' niggas hating on us then lovin' us is fucking nuts  
Made something out of nothing, how real is that?  
The style's all authentic, that's what they feelin' that  
So I don't need your apologies  
Just do what your girl already does and follow me  
See that's what they gotta be, it's not for nothing  
Boy it done got so popping that I got new cousins  
That they ain't my cousins, they just call me when they wantin' something  
I guess that come when your name is what they won't stop discussing  
Baby you gotta love it  
Ain't no function like a Vibe Tribe function  
Cause a Vibe Tribe function really turns  
I represent that West Coast, we call it the best coast  
Cause tree is universal, baby this is where it burns  
I got the light, who's got the trees?  
I mean I'm high sorry reverse it, I got the weed

O-K-T-A-N-E is tellin' all his smokers, what up?  
So what we get high? get over it and shut up  
Hold up a second  
One time if you ever been stressed  
Look all the good things you realize you've been blessed  
Now throw up you middle finger and then put up your index  
Now turn it around  
Peace, Love, Weed and Sex
